The American dollar bill is probably the world's best known banknote, but how many people appreciate and know how and why the Great Seal of the United States of America is printed on it, or understands what the ancient symbols mean? Of all the American currency, the one dollar bill is one of controversy concerning the Great Seal. Many researchers believe these symbols are occult in nature by organizations and societies predominately that of, The Secret Order of the Illuminati and Freemasons.

The origin of the seal came about by a committee that was appointed to develop a design that would reflect our values of a new nation to future generations. Before the adjournment of the Continental Congress on July 4th 1776, this committee consisted of Benjamin Franklin, John Adams and Thomas Jefferson, three of the five who had drafted the Declaration of Independence. They were merely the first committee as it took six more years, the work of two additional committees and a total of 14 men before a final version of the Great Seal was approved. The final proposal, which was accepted by Congress, was submitted on June 13, 1782 by Charles Thompson who had the title of Secretary of Congress. He brought together some of the recommendations of the three committees, their consultants and artist.

History of the One Dollar Bill:

Experiments with paper money did occur throughout the early history of the country, but were largely unsuccessful. People, for good reason, didn't trust the paper notes and preferred gold and silver coins. In 1861, needing money to finance the Civil War, Congress authorized the issuance of Demand notes in $5, $10 and $20 denominations. The Demand notes were so named because they were redeemable in coin “on demand.” The first $1 bill was issued in 1862 as a legal Tender Note with a portrait of Salmon P. Chase, the Treasury Secretary under President Abraham Lincoln.

Throughout the years leading up the present, several changes in the $1 bill, as well as other denominations have taken place and were known as Silver Certificates, Bank Notes and Federal Reserve Notes. Prior to 1935 the Great Seal (Eagle) was used on Official United States Government Documents (United States Passport, Military Insignia, Embassy Placards and Seal of the President), just to mention a few.

How both sides of the SEAL ended up on the Dollar Bill?

In 1934, Henry A. Wallace, then Secretary of Agriculture noted after reading an article (The History of the Seal of the United Stated), that the reverse side of the seal (pyramid) had never been used. He suggested to President Roosevelt that a coin be made. Roosevelt suggested it be put on the dollar bill rather than a coin and took it up with members of his cabinet. Upon approval, the eagle and pyramid appeared on the back of the dollar bill in 1935. The last change to the bill was in 1957 where the words “in God We Trust,” appeared between the pyramid/eagle and above the large word … ONE.

Interesting facts concerning the so-called paper money! As in all paper currency, it's not really paper but a blend of cotton and linen fabric with minute colored silk fibers running through it ... it's actually a material. We've all washed it without it falling apart. A special blend of ink is used, the contents of which we may never know. It is overprinted with symbols and then starched to make it resistant to water and most everyday chemicals. Upon the drying process it is pressed to give it that protective and crisp look.
Examination, Explanation

Interpretation of symbols:

NOTE: There are different opinions as to what the symbols mean! In either case, a lot of thought went into drafting this Great Seal which symbolizes what made this country great!

1. On the front of the bill, you will see the United States Treasury Seal. On the top you will see the scales for a balance budget. **Note:** Congress has the responsibility for balancing the budget, not the Treasury Department. According to the U.S. Treasury Department, the balancing scales represent justice.

2. In the center you have a carpenter’s square, a tool used for an even cut. **Note:** It is not a carpenter’s square. It is a chevron with 13 stars representing the 13 original colonies.

3. Underneath is the key to the United States Treasury, (which the beaucrates have robbed)! **Note:** The key represents authority.

This is all pretty easy to figure out, but what is on the back of that dollar bill is something most individuals are unaware of but is something we should all know. If you turn the bill over, you will see two circles. Both circles together comprise the Great Seal of the United States. If you look at the left-hand circle, you will see a Pyramid. Notice the face is lighted and the western side is dark!

This country was just beginning which symbolizes we had not begun to explore the West or decided what we could do for Western Civilization. The Pyramid is un-capped, again signifying that we were not even close to being finished. Inside the capstone you have the all-seeing eye, an ancient symbol for divinity. It was Franklin’s belief that one man could not do it alone, but a group of men with the help of God could do ... Anything!

“IN GOD WE TRUST” is on this currency. The Latin above the pyramid, ANNUIT COEPTIS, means, “God has favored our undertaking.” The Latin below the pyramid, NOVUS ORDO SECLORUM, means, “a new order has begun.” or does it mean “the new world order” as some claim! At the base of the pyramid is the Roman numeral for 1776.

If you look at the right hand circle and check it carefully, you will learn that it is on every National cemetery in the United States. It is also on the Parade of Flags Walkway at the Bushnell, Florida National Cemetery and is the centerpiece of most hero’s monuments. Slightly modified, it is the seal of the President of the United States. It is always visible whenever he speaks; yet very few people know what the symbols mean!

The Bald Eagle was selected as a symbol for victory for two reasons: First, he is not afraid of a storm; he is strong, and he is smart enough to soar above it. Secondly, he wears no material crown as we had just broken from the King of England. Also, notice the shield is unsupported, signifying this country can now stand on its own. At the top of the shield you have a white bar signifying congress, a unifying factor in that we were coming together as one nation. **Another translation** states the shield consists of red and white stripes with a blue bar above which does represent Congress. The colors are taken from the American flag and officially, the red represents hardiness, valor and the blood shed, the white represents purity and innocence and the blue for vigilance, perseverance and justice. In the Eagle’s beak you will read, “E PLUIBUS UNUM” meaning, “one nation of many people.” Above the Eagle, you have thirteen stars, representing the thirteen original colonies, and any clouds of misunderstanding rolling away. Again, we were coming together as one.
Notice what the Eagle holds in his talons. He holds an olive branch and arrows. This country wants peace, but we will never be afraid to fight to preserve peace. The Eagle always wants to face the olive branch, but in time of war, his gaze turns toward the arrows.

It's almost a worldwide belief that the number 13 is an unlucky number, But think about this: 13 original colonies, 13 signers of the Declaration of Independence, 13 stripes on our flag, 13 steps on the Pyramid, 13 letters in the Latin above, 13 letters in “E Pluribus Unum,” 13 stars above the Eagle, 13 plumes of feathers on each span of the Eagle's wing, 13 bars on the shield, 13 leaves on the olive branch, 13 fruits, and if you look closely, 13 arrows. And, for minorities: the 13th Amendment, all of which make up 13 different symbols!

The above description of the dollar bill is unique, but researchers of the Illuminati and Freemason organizations have a different approach as to the meanings of the pyramid, eagle, hexagram and other symbols to vast to mention here. Learn what is said about the layout of Washington, the owl and Clinton and Bush giving the owl sign!

There are many great sites concerning the dollar bill, the Illuminati and Freemasons. Learn who's on the list from presidents, politicians, preachers and personalities. By typing in the following sites on your browser and researching the information, you can make your own decision as to what is going on and ... I believe you will be very surprised!

Remember ... persons in high positions and money have power!

History is recorded on the One-Dollar Bill, but few know its value other than its monetary purpose. Most citizens of our country don’t know this. Sad that our children are not taught this, as most of their history teachers don't know this as well!

This great country started from nothing just a few centuries ago and the symbols embedded on this everyday living and useful document reflects our past history, purpose and character values which has guided us to our present day. Too many veterans have given up too much to ever let the meaning fade away. Many veterans remember coming home to an America that didn't care. Too many veterans never came home at all ... don't fail them for their sacrifice!

As our country's history, traditions and customs are being destroyed by radical groups, please share this page with others so they can learn what is on the back of the UNITED STATES ONE DOLLAR BILL and what it stands for ... Respect what we have!
